

All suite classes are predicated with **Website_Asset_Share_Suites**.

All rule classes are predicated with **Website_Asset_Share_Rules**.

Rule engine **suites** are denoted by large font text.

Rule engine **rules** are denoted by small font text.

A file must pass all rules from the root of the tree (**Getty**) to any leaf in order to pass the rule engine.

Suites are coloured based on the information their rules use.

- Generic first level rules are purple.
- File filtering suites are green.
- Exclusivity suites are blue.
- Collection suites are orange.
- License suites are yellow.
