

All suite classes are predicated with **Website\_Asset\_Share\_Suites**.

All rule classes are predicated with **Website\_Asset\_Share\_Rules**.

Rule engine **suites** are denoted by large font text.

Rule engine **rules** are denoted by small font text.

A file must pass all rules from the root of the tree (**Getty**) to any leaf in order to pass the rule engine.

Suites are coloured based on the information their rules use.

Generic first level rules are purple.

File filtering suites are green.

Exclusivity suites are blue.

Collection suites are orange.
